TSC Projects

- The following projects were completed in FY11:
 - ITAM Trails, drainage and KD Range Vegetation Removal. Service roads were improved, shrubs and excess trees were removed to improve visibility of targets and lane markers on KD Range. Service roads were repaired, and proper drainage was added, preventing excess water buildup.
- Current on going projects for FY11:
 - Installation of electrical power to BMTA Range 21 in preparation for upgrading range to Automated Record Fire Range in FY 13
 - Reconfigure MOUT Site: Construct a Replicated Agricultural Terrain site similar to those found in Afghanistan and will be located at the MOUT Site.
